ESA is honored to host ICE 2016, the XXV International Congress of Entomology, under the theme *Entomology without Borders*.

The historical event is expected to bring together the largest delegation of scientists and experts in the history of the discipline, who will meet in exciting, easily-accessible, and affordable Orlando, Florida, USA from September 25-30, 2016. The Congress will allow delegates to:

- Make important connections with entomologists and scientists from around the world.
- Present to a global audience and compete in global competitions.
- Participate in forums and discussions covering every aspect of the discipline.
- Build global networks and collaborative research with others in your field of interest.
- Showcase products and services to an important global audience.

An estimated 6,000 scientists and students will have opportunities to interact with the world's leading experts in many specialties to exchange ideas and build on their research. Symposia and individual presentations throughout the week will highlight the most recent advances in a wide diversity of entomological subjects around the global theme.

Students and early career scientists will have an once-in-a-lifetime opportunity to present their research in front of a global audience, to compete in global competitions, and will make important connections to last a lifetime.

- To secure an exhibit or sponsorship during ICE 2016, contact Cindy Myers at cmyers@entsoc.org

About the Host, ESA - www.entsoc.org

The Entomological Society of America (ESA) is the largest organization in the world serving the professional and scientific needs of entomologists and individuals in related disciplines. Founded in 1889, ESA has nearly 7,000 members affiliated with educational institutions, health agencies, private industry, and government. Members are researchers, teachers, extension service personnel, administrators, marketing representatives, research technicians, consultants, pest management professionals, students, and hobbyists—including many world-renowned leaders in the global community. ESA publishes four internationally-acclaimed scientific journals, produces the largest Annual Meeting focused on the entomological sciences, and manages a highly-respected awards program. ESA is honored to host ICE 2016.
